Is there one thing about the team that you would like to see improved? Don't just criticize; suggest an improvement.

Are there any common concerns? Select one thing that all team members would like to improve. Come to consensus on some specific strategies that all team members feel comfortable using to improve team functioning in this area:

Plus/Delta was originally developed by Boeing Commercial Airplanes. This adaptation by Susan Ledlow, Center for Learning and Teaching Excellence, Arizona State University, was designed as a processing tool for cooperative learning teams.
